# Øyvind Aukner

Senior Cloud / Platform Engineer (AWS) · Norway · Open to relocation to Australia

+47 950 96 996 · oyvind.auk@gmail.com · [oyvindaukner.com](http://oyvindaukner.com)

## Experience

**Senior Cloud Engineer**                                                             Aug 2024 — Present
Fremtind Forsikring AS · National insurance provider                                      *Oslo, Norway*

- Owned and evolved AWS infrastructure using CDK (TypeScript), standardising deployments and automation across the organisation
- Designed and operated a company-wide SFTP platform using AWS Transfer Family, supporting secure integrations across multiple teams
- Acted as a central platform engineer, enabling scalable and secure cloud usage across multiple teams and business units

**Software Engineer**                                                                Jan 2024 — Aug 2024
Cargotron AS · Transport management solutions                                              *Oslo, Norway*

- Salvaged and launched TDoc timekeeping system after previous consultancy bankruptcy
- Stabilised two React codebases and collaborated on C# backend development and API integration

**Senior Fullstack Developer**                                                       Aug 2022 — Dec 2023
Fleks AS · Car subscription service                                                       *Oslo, Norway*

- Built a new store with grid view and product page using modern web technologies
- Designed and implemented functionality for adding charging chips to vehicles in the operations app
- Developed AWS Lambda functions supporting a new insurance offering

**Fullstack Developer**                                                              Jan 2020 — Aug 2022
Capra Consulting AS · Consulting services                                                 *Oslo, Norway*

- Implemented App charging microservice at APCOA Norway
- Worked with Yara to implement dashboards and IoT data visualisation on AWS
- Worked on logged-in user pages for Gjensidige using modern frontend frameworks

**Military Service (Sergeant)**                                                              2011 — 2015
Norwegian Armed Forces                                                                  *Northern Norway*

## Education

**NTNU - Norwegian University of Science and Technology**                             Aug 2016 — Jun 2019
*Bachelor of Informatics*                                                                       *Norway*
