Experience

Senior Cloud Engineer

Aug 2024 — Mar 2026

Fremtind Forsikring AS · National insurance provider

Oslo, Norway

- Owned and evolved AWS infrastructure using CDK (TypeScript) as a central platform engineer, standardising deployments, automation and self service workflows across the organisation
- Built and managed a secure company-wide SFTP platform using AWS Transfer Family and GuardDuty, supporting file transfers across multiple teams and external partners
- Served as security champion and AWS community of practice lead, driving knowledge sharing initiatives on best practices and security topics

Software Engineer

Jan 2024 — Aug 2024

Cargotron AS · Transport management solutions

Oslo, Norway

- Salvaged and launched TDoc timekeeping system after previous consultancy bankruptcy
- Stabilised two React codebases and collaborated on backend development and API integration

Senior Fullstack Developer

Aug 2022 — Dec 2023

Fleks AS · Car subscription service

Oslo, Norway

- Built a new store with grid view and product page using modern web technologies
- Designed and implemented functionality for adding charging chips to vehicles in the operations app
- Developed AWS Lambda functions supporting a new insurance offering

Fullstack Developer

Jan 2020 — Aug 2022

Capra Consulting AS · Consulting services

Oslo, Norway

- Implemented App charging microservice at APCOA Norway
- Worked with Yara to implement dashboards and IoT data visualisation on AWS
- Worked on logged-in user pages for Gjensidige using modern frontend frameworks

Military Service (Sergeant)

2011 — 2015

Norwegian Armed Forces

Northern Norway

Education

NTNU - Norwegian University of Science and Technology

Aug 2016 — Jun 2019

Bachelor of Informatics

Norway
